Summary

I am a versatile software engineer specializing in MERN stack development with a keen interest in cybersecurity and ethical hacking. Fluent in five languages and proficient in over ten programming languages, I possess a diverse skill set that allows me to adapt and excel in dynamic environments. I am passionate about problem-solving through the implementation of complex data structures and have a strong desire to explore the fascinating realm of AI. With a deep understanding of both web development and security practices, I am dedicated to creating secure and efficient software solutions. My enthusiasm for technology and continuous learning drives me to stay up-to-date with the latest industry trends and advancements.

Skill Highlights

- Project management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

Experience
